

David Williams

Dr **David Williams** is Chief Researcher and Laboratory Manager of the Hitachi Cambridge Laboratory, of which he was a founding member in 1989, and a Visiting Professor at the University of Nottingham. The Hitachi Cambridge Laboratory (HCL) was established in 1989 as an embedded laboratory within the Cavendish Laboratory, Cambridge University, with the aim of creating new concepts of advanced electronic and optoelectronic devices. David's research interests include quantum information processing, mesoscopic quantum electron transport, novel silicon memory and nanospintronics.
